A Standard Charter for Peer Support Principles
Need to keep it real
Values
Is it respected?
Ethos
To get it right it's Comp/icated
reach out and connect within organisation
building unity and shared knowledge and history
Keep Survivor led research going
if should not be about saving money
must not be abused by the system
Recognise it's Value and pay properly
What is a Peer?
Someone who shares an experience...
we're all different
Keep it accessible
make it OK to disclose
GAP-Support Workers with lived experience
Connect with other 'peers'
reach out
Build on our strengths
BIG connections
strengthen we today
new message
1 in 1
We all have mental health
We can really take it wherever we want!
Panel Debate
Social movement
How can we ensure it isn't tokenistic
Keeping Lived Experience really in it
Counter culture
free
not hooked to funding
The Power comes when we do it ourselves!
When it is done well within the system/big organisations it is powerful and works well
Is the Peer tag necessary/useful?
if it means something to people
Peer Support isn't just about jobs
We don't all want to work in mental health
Build the evidence to support what we know and feel the power of
Peer Support isn't just one thing. Celebrate diversity
with some glue Principles and shared understanding
