

# Getting Fit Training Plan:

## Cross Training

fullpotential 

This template training plan has been provided by Mind's training partner, Full Potential.

## Important

**Disclaimer:** Full Potential is an independent service provider.

Mind does not endorse or guarantee the services of Full Potential, and you take part in a training programme recommended by Full Potential at your own risk.

It's your responsibility to consult with your GP to make sure that you're medically and physically fit and well enough to take part in a Full Potential training programme and – as per our **terms and conditions** your fundraising challenge.

Mind will not be held responsible for any injury or illness related to your training or taking part in a fundraising event.

We know physical activity can be an amazing way to support mental health. However, it isn't helpful for everyone all the time.

It's important to recognise that some people can develop an unhealthy relationship with physical activity. Anyone can develop an unhealthy relationship with exercise.

But this may be more likely if you have certain types of mental health problems. There's lots of tips for developing a healthy relationship with physical activity on **Mind's website**.

## How the plan works

We have created this plan to supplement the training you are going to be doing as part of your 8 week challenge. We have created a Running Focused plan, and a Cross Training one. The big difference will be that the running plan will put more impact through your legs. The plans have been designed so you could switch from one to another with ease. The training here has been designed to supplement and not replace the training you are already doing for your event.

Cross training is any training that is not running. Rowing Machine, Elliptical Trainer, Cycling, Stepper or Ski Erg are all great training sessions you can do.

We start out with two sessions a week, and then build to alternating between two and three sessions each week. If you find it is too much then drop one of the sessions in this plan.

Have some fun too! You are taking on this challenge to raise funds for Mind, and likely putting yourself outside your comfort zone, doing something you may never have done before. We also want this process to be fun, because it is for you. Choose routes you are going to run that are interesting. Maybe have some great music to motivate yourself, and treat yourself afterwards.

## Top sleep tips

Doing any contact sport, we want to encourage you to be focusing on Recovery. Sleep is the ultimate recovery tool. Make sure that you are prioritising your sleep and you will be able to get through this challenge.

- See sleep as the start of your day, rather than the end of it.
- Get comfortable with nice sheets and a pleasant temperature.
- Darkness is your friend, so try and keep the light out.
- Keep your phone away from your bedroom .
- Don't take sleep for granted.

## Our guide to the training sessions

Most people think that training “harder is better” so we end up training too hard, which can result in feeling tired, getting ill or picking up an injury. Understanding what each session is trying to achieve and how it should feel is the way to train smart. Here’s our guide to the training sessions that you’ll find mentioned in your training plan and a note of how they should feel as a ‘talk test’.

Type of session	Perceived effort level	How it feels – 'The talk test'
Easy / Recovery Effort	55-65%	You can speak in complete sentences, totally conversational. Keep to this effort the whole way during your cross training session.
Steady Effort	70-80%	You can speak in short sentences but have a slight pause on your breath. It links Easy and Threshold running.
Threshold Effort	80-85%	You could speak 4-5 words if somebody asked you a question. Your breathing is more laboured and you know you're working, we call this 'controlled discomfort'.

# Getting Fit Plan: Cross Training

	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Week 1		25 minutes Easy Cross Training				35 minutes Easy Cross Training	
Week 2		Cross Train: 8 minutes Easy, 8 minutes Steady, 8 minutes Easy			25 minutes Easy Cross Training		
Week 3		35 minutes Easy Cross Training				45 minutes Easy Run	
Week 4		Cross Train: 5 minutes Warm Up, 4 x 2 minutes at Threshold effort with a 60 second recovery, 5 minutes Cool Down				35 minutes Easy Cross Training	

Getting Fit Plan: Cross Training

	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Week 5		25 minutes Easy Cross Training		Cross Train: 5 minutes Warm Up, 5 x 2 minutes at Threshold effort with a 60 second recovery, 5 minutes Cool Down		45 minutes Cross Training	
Week 6			Cross Train: 5 minutes Warm Up, 3 x 3 minutes at Threshold effort with a 60 second recovery, 5 minutes Cool Down		35 minutes Easy Cross Training		
Week 7		Cross Train: 5 minutes Warm Up, 4 x 3 minutes at Threshold effort with a 90 second recovery, 5 minutes Cool Down			25 minutes Easy Cross Training		45 minutes Easy Cross Training
Week 8		Cross Train: 5 minutes Warm Up, 5 x 3 minutes at Threshold effort with a 90 second recovery, 5 minutes Cool Down					35 minutes Easy Cross Training

## Making the Training Plan work for you

You'll probably not be able to follow the plan as it is set out. We've written our plans with this in mind:

- You can mix up the training days as you need. The plan is designed so that we build up to doing some back to back exercise sessions before your challenge starts.
- Vary the training you are doing. If you are doing a running or cycling challenge, then swap in running and cycling sessions as needed. This plan is just a guide.
- Think about the best timing for your exercise session, are you an early bird or a night owl?
- Vary the intensity of your workouts each day, follow a harder day with something easier and avoid burning out.

**Have fun!**

# Thank you for supporting Mind!
